

Hello!

In a show of solidarity, we are asking each and every one of you to hang up a sign in your workspace to proudly display what your number one priority is for our new Union contract.

While we expect the bargaining process to take several months, we want to start applying pressure NOW!

The more of us displaying the signs the better, it will show management that we stand together on these issues!

Yes! We do have the legal right to display these signs in our workspaces!

Yes! we can use our work printers to print them!

If you get any pushback from management, let the Union know immediately!

Download this PDF and print out your favorite(s)!

There are color and black-and-white versions of each sign.
